

## **txt or xls upload error**

In case you encounter an upload error with txt or csv files using 9.0 Matlab installer or later be sure to customize number format by changing decimal and grouping symbols

### **Windows10**

- Open Control panel
- Under the Clock, Language and Region tab, press Change date, time or number formats.
- Select additional Settings
- Select as Decimal symbol the point "." and Digit grouping symbol the comma ","

### **Mac OSX el capitan (10.11)**

- Open System Preferences
- Select Language & Region
- Press advanced
- Select the General tab
- Change Number separators and select Grouping as comma "," and Decimal as point "."
